

# Women's Hope Kit Program & Speaking Points Con't

## Share About the Impact of Your Kits

If your group decides to keep the Women's Hope Kits and distribute locally, we recommend having a representative from that organization speak to your group or provide you with information on the recipients. This is a great way to gather information from your own community and area you are serving and see the impact of your Women's Hope Kits.

This would also give the participants meaningful insight to the women that will receive their kit and help with their encouraging note.

## TIPS:

- Create questions that event participants can reflect on individually or in small groups after watching the Women's Hope Kit video.

- Read a sample note of encouragement to give participants an idea of what to write.

For example:

I packed this Kit to let you know you are cared about. I hope you will be encouraged by these simple items and that you know you are not alone in the midst of a difficult situation.

– Joan Anders, Tacoma, WA
