

Assemble Hygiene Kits for those in the United States affected by poverty, homelessness, or natural disaster

Your group can provide personal hygiene items and reach out to those who need encouragement and hope. The items in this kit provide practical help and the message that someone cares for them.

When your group hosts a Hygiene Kit event you become part of the recovery process by providing these simple gifts of hope.

“

This was our first house. Everything was getting settled and this [tornado] happens, it's hard.”

-Teegan

How it works

Companies, churches, and community organizations purchase supplies through World Vision, host an event and assemble the kits. Completed Hygiene Kits can be distributed locally by you or through World Vision.
