In times like these, YMCAs are beacons of hope in their communities. Our hats are off to you, as you continue to find ways to help your communities in the middle of making some of the toughest decisions you've ever had to make. As every YMCA is faced with many "unknowns" in this next chapter, we know that cutting cost is going to be new priority.

Our Membership Software can save most Ys 40% compared to their existing service. For a small Y that might mean an extra \$800/mo. For some larger Ys we have seen savings as high as \$300,000/yr. That doesn't include the savings in time and processes which can add up, too.

Joel Smoker, CEO of the YMCA of Coastal Georgia stated, "Our afterschool collections are going crazy good because of Core. Just one of our branches is up \$150k in two months compared to 2018."

Along with saving YMCAs hard costs and time, ReClique Core is rated the #1 Membership Management platform in the YMCA world, according to softwarereviews.com. That's something that we don't take lightly or for granted.

If you have a moment, visit www.reclique.com to learn a little more about us. If you think it makes sense, maybe we can set up a time to share more about how we are helping Ys.

Thanks again for all that the Y continues to do!
