

## Tall Cabinet Configurations

### CABINET NOMENCLATURE

# WFD301824

CABINET TYPE      WIDTH      HEIGHT      DEPTH

**ex. W3036** = Wall Cabinet: 30-in wide x 36-in tall  
*Width x Height x Depth (depth is standard 12-in, so is not noted)*

**ex. 4BD18** = Four Base Drawer Cabinet: 18-in wide  
*Height x Depth not noted (these are standard 24-in deep x 34 1/2-in high)*

...

**BASE CABINETS:** Standard 34 1/2-in tall (before countertop) and 24-in deep (not including door/drawer faces).

**WALL CABINETS:** Standard 12-in depth. Latitude offers an additional standard 15-in depth.

**TALL CABINETS:** Available in 84, 90, 93, and 96-in heights. 24-in deep with select 12-in deep options.

**VANITY CABINETS:** Available in 32-in and 34 1/2-in heights (*not including countertop*). Both are 21-in deep.

Cabinet sizing uses a 3-in increment system for width, height, and depth. Latitude Cabinets offers select base and wall cabinets in 1 1/2-in width increments to allow for design flexibility. Height, width, and depth reductions are also available on most cabinets.

# TALL CABINET CONSTRUCTION

1. 5/8" shelves are full depth and adjustable on steel shelf pins.
2. 4 5/8" x 4" fastening strips doweled into case sides, behind back panel.
3. 5/8" Fixed shelf
4. 1/4" thick back panel; inset into dado joints in side panels; top and bottom edge of panel will show.
5. Concealed wood dowel and glue joints where sides join tops and bottoms.
6. Loose toe kick platform on all Tall cabinets.
7. 5/8" thick sides, top, bottom & adjustable shelves; solid color PVC banding on all exposed edges.
8. Doors attached with 110 degree opening soft close hinges.

## Notes:

- Tall cabinets 9-21" wide will have single width door; specify hinge direction.
- Tall cabinets 24" and wider will have 2 equal width 'butt' doors; reveal or gap between doors will be 1/8" (3mm) once field adjusted.
- To facilitate job site delivery, the toe kick 'box' is shipped loose (inside cabinet) on all tall cabinets, and is a pre-constructed box that is to be attached to the cabinet on the job site.
- See individual cabinet details for upper and lower door heights of tall and oven cabinet.
- Standard white, and optional gray and maple melamine interior details – all interior and exterior surfaces will be same color melamine material.
- Plywood option details - all interior and exterior surfaces will be same plywood material.
- Door reveals – 1/8" at top and bottom; 1/16" on outside edges; 1/8" between doors/drawers.

## Pantry Cabinet Adjustable Roll-Out | PCAR

84", 87", 90", 93", 96" High x 24" Deep

- Features patented adjustable roll-out system. No tools required to reposition roll-outs within the cabinet.
- Provides height adjustment of roll-outs on 1 1/4" increments.
- Recessed & raised panel doors taller than 48" will have a centered horizontal rail.
- Bottom doors will be built as 2 doors operating as 1, for Rift door style. Doors will be split equally in height and dowelled together with no reveal between.
- 84" - 87" High - no shelving included in upper section.
- 90" High - one shelf included; 93" - 96" High - two shelves included.
- Includes 5 full extension soft close roll-outs.
- Lower door height is 61-3/8"

### Cabinet Height - Upper Door Heights:

- o 84"-17 3/4"
- o 87"-20 3/4"
- o 90"-23 3/4"
- o 93"-26 3/4"
- o 96"-29 3/4"

### Note:

- There may be some slight flexing of glide hardware when roll-outs are fully extended. This is normal due the adjustable mounting system, and does not compromise roll-out performance.

## STEPS TO ADJUST ROLL-OUTS:

1. Remove roll-out to be re positioned. Release levers are front underside of the roll-out.
2. Glide assembly is still in cabinet.
3. Pivot each glide upward 90 degrees first, then pull forward to remove from wood pilaster.
4. Re-insert glide pins into set of holes desired for new location; and pivot back down into position. This locks guide in place.
5. Once both glides are inserted, rest roll-out on guides and push inward until it snaps into place.

## Base High Pantry Cabinet - 12" Deep | BHPC

84", 87", 90", 93", 96" High X 12" Deep

- Lower door matches base full high cabinet height.
- 12" - 21" wide will have 1 full width door, specify hinge right or left.
- 24" - 36" wide will have 2 equal width doors.
- 4½" high toe kick shipped loose.
- 84" - 90" High will have 5 adjustable shelves included.
- 93" - 96" High will have 6 adjustable shelves included.
- Upper door heights:
  - o 84" tall = 49-3/8"
  - o 87" tall = 53-3/8"
  - o 90" tall = 55-3/8"
  - o 93" tall = 58-3/8"
  - o 96" tall = 61-3/8"
- Recessed & raised panel doors taller than 48" will have a centered horizontal rail.
- Upper doors will be built as 2 doors operating as 1, for Rift door style. Doors will be split equally in height and dowelled together with no reveal between.

# TALL CABINETS

## Tall Pull-Out Spice | TPOS

84", 87", 90", 93", 96" High x 24" Deep

- Includes 5 full extension 4" tall soft close roll-outs; with three attached to the lower door; the other two roll-outs operate independently.
- 84" - 87" High - no adjustable shelf in upper section.
- 90" - 93" High - 1 adjustable shelf in upper section.
- 96" High - 2 adjustable shelves in upper section.
- Recessed & raised panel doors taller than 48" will have a centered horizontal rail.
- Bottom doors will be built as 2 doors operating as 1, for Rift door style. Doors will be split equally in height and dowelled together with no reveal between.
- Lower door height is 61-3/8"
- Cabinet Height - Upper Door Heights:
  - o 84"-17¾"
  - o 87"-20¾"
  - o 90"-23¾"
  - o 93"-26¾"
  - o 96"-29¾"

### Note:

- If Satino drawers are specified on order, the roll-outs in the TPOS will also be Satino construction, and the up charge for 5 roll-outs will apply.
- It is critical that handle be placed at center of door for properly balanced pull out function.

## Oven Cabinet Notes

It is the responsibility of the installer to securely fasten appliance support cleats and panel (included with all oven cabinets), within the cut out opening per appliance instructions. Always refer to appliance instructions prior to installation; Latitude does not take responsibility for incorrect appliance installation.

1. 3/4" thick panel to be installed just slightly above (1/4") the bottom rail of the oven frame to prevent the frame from having weight load
2. Some built in ovens may require the back panel to be cut out to allow more depth; check appliance specs.
3. Oven panel details:
  - o Flat panel door styles will have a matching flat oven panel with matching edge banding.
  - o Frame and panel door styles will have oven panels built with matching stile and rails.
  - o Oven panels for Moda door style will be horizontal pattern direction.
  - o Oven panels for Monza and Parma door styles will be matching vertical pattern flat panels.
  - o Oven panels for Rift Door will be vertical grain pattern.
4. Cleats should be screwed into cabinet wall from inside. Set cleat height to compensate for 3/4" thick panel

## Double Oven | D0

84", 87", 90", 93", 96" High x 24" Deep

- Use 33" wide cabinet for 30" ovens; 30" wide for 27" ovens.
- 55-3/8" tall oven panel on middle section.
- Oven panel will have same edge profile as doors; panel is removable.
- 4 1/2" high toe kick shipped loose.
- One loose shelf with cleats is shipped with this cabinet for use in installation of oven.
- Cut oven panel to opening size on job site. It is strongly recommended that the max oven panel opening width be no more than cabinet width minus 3".

## Tall Blind Corner | TBC

84", 87", 90", 93", 96" High x 24" Deep

- Tall blind corner provides unique storage and design options for corners.
- Built as a single unit; loose toe platform provided.
- Door heights are equally divided. (Ex: 84" - 4.5" toe space = 79.5" / 2 = Two 39.75" nominal height doors.)
- Upper section includes three adjustable shelves and the lower two shelves. Shelves are shaped to improve blind access.
- The blind panel is an integral part of the cabinet and is finished material matching the door. It has a vertical pattern direction for all wood and grain patterned door styles.
- Actual box width is 6" less than stated width. TBC48" is 42" box width. Installs 6" from corner, can be pulled 1-1/2" more to max of 7-1/2" from corner.
- 42" wide = 15" wide doors; 36" actual box width.
- 45" = 18" wide doors; 39" actual box width.
- 48" = 21" wide doors; 42" actual box width.

TBC4884	TBC4887	TBC4890	TBC4893	TBC4896

### IMPORTANT NOTES ON INSTALLATION OPTIONS (See Next Page For Install Scenarios)

- If overlay panels are preferred or needed to cover the void space, order separately and field trim and install. These would be installed flush with the TBC door.
- Order as APC (Applied Panel Custom) if vertical grain direction is acceptable. Suggest ordering panel 28" in width x cabinet height; trim to fit on site.
- If horizontal grain pattern is needed for this exposed surface, order as 2 - CPODs. This situation would apply to designs using the Moda and Rift door styles.
- CPOD sizes would be:
  - o 84" tall - 26 3/8" wide x 39 9/16"
  - o 87" tall - 26 3/8" wide x 41 1/16"
  - o 90" tall - 26 3/8" wide x 42 9/16"
  - o 93" tall - 26 3/8" wide x 44 1/16"
  - o 96" tall - 26 3/8" wide x 45 9/16"

## Tall Blind Corner Pivot Tray | TBCPT

84", 87", 90", 93", 96" High x 24" Deep

- Tall blind corner provides unique storage and design options for corners.
- Built as a single unit; loose toe platform provided.
- Door heights are equally divided. (Ex: 84" - 4.5" toe space = 79.5" / 2 = Two 39.75" nominal height doors.)
- Upper section includes three adjustable shelves; shelves are shaped to improve blind access.
- Bottom section of TBCSO will contain 2 heavy duty smooth-motion pivot trays and 1 adjustable shelf. Trays pivot and extend into opening for improved access in the bottom section.
- Trays feature chrome railing and light gray melamine shelf. They operate independently and are height adjustable. They also include a pivot limiter to adjust pivot travel.
- The blind panel is an integral part of the cabinet and is finished material matching the door. It has a vertical pattern direction for all wood and grain patterned door styles.
- Actual box width is 6" less than stated width.
- 45" = 18" wide doors; 39" actual box width.
- 48" = 21" wide doors; 42" actual box width.

  - o 96" tall - 26 3/8" wide x 45 9/16"

## Tall Blind Corner Cabinet Install Scenarios

### EXAMPLE 1:

1. In this example, an additional panel is required to cover the blind cabinet void space at the back wall. This panel is ordered separately, and in an example like this, should be ordered as a APC (Applied Panel Custom). It is suggested to order slightly oversized and trim to fit on site. Suggested width would be 28", and the height would be the same as the TBC height. Being an APC panel, pattern direction will run vertically. See example at bottom of page if using horizontal grain pattern door style.
2. Fillers (standard or door faced) suggested between the Tall Blind Corner and any wall or base cabinet that returns off the Tall Blind Corner to allow door and drawer clearance.

### EXAMPLE 2:

1. In this example, with tall cabinets butting into the tall blind, no additional panels are needed. Install tall fillers (standard or door face fillers), in the corner; 2" minimum width suggested.
2. A finished end is needed on the right end of the TBC in this example.

### EXAMPLE 3:

1. In this example, an additional panel is required to cover the blind cabinet void space at the back wall. The designer wants horizontal grain pattern to match the door style (this would be applicable to Moda and Rift doors.). To achieve the horizontal grain pattern, order two CPODs (Custom Plant On Doors). There will be a seam, and the CPODs should be sized to align with the doors on the TBC cabinet. (See notes on previous page.)

# TALL CABINETS

## Tall Open Finished - 12" Deep | T0

84", 87", 90", 93", 96" High x 12" Deep

- Cabinets constructed with 3/4" thick sides, top, bottom, and shelves.
- All interior and exterior surfaces are finished to match.
- Case edge band is real wood veneer 'tape' on wood door orders.
- The A grade side of wood veneers will be placed on the interior side of the cabinet unless a finished end is specified, in which case the A side will be used on the exterior side.
- There is no additional charge for finished ends on this open cabinet.
- Fixed shelf located 34 1/2" from floor.
- Adjustable shelves.
- 4 1/2" high toe kick shipped loose.
- Sides and back will have vertical pattern/grain direction in all door styles.
- Note: Use open finished interior cabinets to achieve a glass door cabinet with a matching finished interior. See Modifications page.

## Tall Open Finished - 24" Deep | T0

84", 87", 90", 93", 96" High x 24" Deep

- Cabinets constructed with 3/4" thick sides, top, bottom, and shelves.
- All interior and exterior surfaces are finished to match.
- Case edge band is real wood veneer 'tape' on wood door orders.
- The A grade side of wood veneers will be placed on the interior side of the cabinet unless a finished end is specified, in which case the A side will be used on the exterior side.
- There is no additional charge for finished ends on this open cabinet.
- Fixed shelf located 34 1/2" from floor.
- Adjustable shelves.
- 4 1/2" high toe kick shipped loose.
- Sides and back will have vertical pattern/grain direction in all door styles.
- Note: Use open finished interior cabinets to achieve a glass door cabinet with a matching finished interior. See Modifications page.
