

# Winter Vocabulary

# Palabras de Invierno

## Product Info:

I use this type of vocabulary sheet for my special education classroom where primary instruction is given in Spanish with support in English. Students primary language is Spanish.

This is a great way to extend speech and language since all of our students have language delay.

There are sentence starters at the top "Yo Veo" (I see) and "Es una" (It is).

You can also cut up the cards and play a matching game.

Please make sure to only use this product for one classroom or for one person. Please refer people to [my TPT site](#) if they would like their own copy of the product! ©Michelle Wass2016

**Thank you for the purchase! Please let me know if you have any comments or suggestions.**
